

Easy-Fire Top-Loading Kilns

The Best Kiln Made for Performance, Accuracy, and Durability.

- **HARD CERAMIC ELEMENT HOLDERS PROTECT BRICK AND MAKE ELEMENT CHANGES FAST AND EASY**
- **DYNAMIC ZONE CONTROL KEEPS TEMPERATURES UNIFORM THROUGHOUT KILN**
- **DROP-DOWN, PIGGY-BACK PANEL PROTECTS ELECTRONICS AND MAKES SERVICING EASY**
- **PROTECTED THERMOCOUPLES**
- **SPRING-ASSIST HINGE ON LARGER MODELS DOES NOT NEED SIDE SUPPORT BARS - MAKES LOADING EASY FROM ALL SIDES**
- **SUPER-STRONG ALUMINIZED STEEL STAND SECURELY SUPPORTS VENT SYSTEM**
- **FOR POTTERS, TEACHERS, INSTITUTIONS, CAMPS, HOBBYISTS, AND INDUSTRY - ANYONE WHO NEEDS A CAREFULLY ENGINEERED KILN THAT WILL LAST LONGER AND SAVE MONEY IN MAINTENANCE COSTS**
- **CUSTOMIZE TO MEET YOUR EXACT NEEDS. EVERY KILN IS BUILT TO ORDER**

KILNS BUILT TO LAST

Bulletin No: EZ-0822

Unique L&L Features with Lasting Benefits

CONE 10 TEMPERATURE RATING

Cone 10, 2350°F, 1290°C (Except for single phase e28T-3 models and single phase 208 volt e28M-3: see specification pages for details).

3" OF K23 FIREBRICK

3" K23 firebrick on all models.

PATENTED CERAMIC ELEMENT HOLDERS

Protect brick from loading damage, keep elements from falling out of grooves, make changing elements easy, and optimise heat transfer to load. Kiln lasts longer! No pins. (hotkilns.com/ceramic-holders)

HEAVY-DUTY LARGE ELEMENTS

Heavy-duty. 2 elements per 9" section. 1 element on 4.5" high section. *Quad elements, which double the element wire, are optional on all models. See Page 6.*

EXTRA CASE CLAMPS

Stainless worm gear case clamps keep case together and allow for adjustment over time. Three per 9" section, Two per 4.5" section and two on the top and bottom. (hotkilns.com/case-clamps)

"EASY-OPEN, EASY-LOAD" SPRING-LOADED LID OPENS WIDE FOR LOADING

On e23 and e28 models the whole kiln supports the lid (not just one section). Our positive safety pin secures the lid safely. No side support bars get in the way of loading when the lid is fully tilted back. (hotkilns.com/spring-hinge)

STAINLESS STEEL HINGE ON E18 MODELS

Chains secure the lid in place when open. (hotkilns.com/simple-hinge)

LID BRICK IS SECURED WITH CLIPS

Stainless Steel clips secure lids - not friction.
(hotkilns.com/lid-clips)

HEAVY-DUTY FULL-SUPPORT STAND

Heavy-duty 14 gauge solid stand with multiple bends for strength. Bolt on legs. Feet protectors included. Optional Vent Bypass Collection Box bolts onto bottom of stand with included studs. *Rolling stand is optional. See page 6.*
(hotkilns.com/full-stand)

EASY ASSEMBLY WITH SECTIONAL CONSTRUCTION

Two 9" sections for the S models, two 9" and one 4.5" middle section for the M models, and three 9" sections for the T models. Sections stack on top of each other. Easy to assemble or disassemble for moving. Bottom is reversible.

(hotkilns.com/sectional-easy-fire)

CORROSION RESISTANT CONSTRUCTION

Stainless steel wrapped around brick. All stainless screws on case. Stand is galvanized. Vent parts are stainless steel or aluminium. Hinge is stainless steel. Control box is powder coated steel. (hotkilns.com/case)

SOLID PEEPHOLE PLUGS

Solid (non-fragile) ceramic plug with heat-locked mushroom head. 1" diameter full-view non-tapered.
(hotkilns.com/peephole-plugs)

EASY MULTI-PROGRAM DYNATROL

The time-tested DynaTrol with 4 Easy-Fire programs, 6 Vary-Fire programs, PreHeat, Delay, Program & Segment Review, and Diagnostics. Control is mounted on an angled panel for easy viewing. *Optional Genesis control (see page*

8) features touch screen and free Wifi App for monitoring kiln. (hotkilns.com/dynatrol)

DYNAMIC ZONE CONTROL

This is a **standard** feature with either a DynaTrol or touch-screen Genesis control. The control separately measures temperatures in the bottom, middle, and top of the kiln and automatically adjusts the heat of two or three zones during the firing.

Kiln temperatures are automatically equalized to within 1/2 cone or better. Zone control automatically compensates for many loading issues and element resistance changes. Additionally, L&L kilns are fundamentally uniform because the element holders radiate the heat more evenly. S and M models have two thermocouples. T models have three thermocouples. (hotkilns.com/zone-control)

SEPARATED COOL-FIRING CONTROL PANEL

All controls and components are mounted in a separate control panel that is piggy-backed to the element connection box. In addition a layer of insulation keeps the controls cool - which is critical for long term health of the electronics.

The control panel and element box are hinged for easy access and maintenance. The control box can be easily removed for servicing. On/off switch and control fuse are included. (hotkilns.com/easy-fire-panel)

MERCURY FREE RELAYS

Mercury free relays are standard. See Page 9 for optional electronic SSRs for extra long element life and quiet operation.

CERAMIC ELEMENT CONNECTIONS

Proprietary all-ceramic element connection block makes changing elements easy. (hotkilns.com/ceramic-terminal)

HEAVY-GAUGE TYPE K THERMOCOUPLES

Type K 8 gauge thermocouple is protected by a open ceramic protection tube. This allows the thermocouple to accurately read the kiln temperature but protects the delicate tip of the thermocouple from damage while loading. Also any metallic flakes from the thermocouple will tend to drop inside the tube where they can be vacuumed out during normal maintenance. (hotkilns.com/protected-thermocouples)

POWER CORD & PLUG INCLUDED

50 Amp NEMA 6-50 six foot cord included for one phase.

50 Amp NEMA 15-50 six foot cord included for three phase. (All Non-USA kilns are direct wired).

Same price for all voltages and phases.

COMPLETE VISUAL INSTRUCTIONS

No one has a better or more complete instruction manual. Our visual instructions address the needs of the artist, the installer, and the repair person. You get a fully illustrated operation and service manual. Many instructional videos are available. (hotkilns.com/support/videos)

L&L KILNS ARE EASY TO TROUBLESHOOT

Open up any L&L kiln control panel and see how easy it is to check amps, element resistance, and voltage. No other kiln can be serviced as quickly, easily, or inexpensively as an L&L kiln.

THREE-YEAR LIMITED WARRANTY

See hotkilns.com/warranty. Email, web and phone support.

IN-DEPTH SUPPORT

One customer said: "I am truly impressed with your website, it is more than informative and your products are well designed. The fact that all the information, including repair manuals, are listed, speaks well of your dedication to customer service." Our website has thousands of pages of technical help - all easily searchable - plus we provide expert support with phone and email.

SUSTAINABLE MANUFACTURING

We use solar energy as our primary energy source.

SUPERIOR PACKAGING

Kilns are securely packed with custom foam molds that dramatically reduce shipping damage. Kilns are shipped in skidded cartons on ISPM-15 certified skids.

MET UL499 LISTING

c-MET-us listed to UL499 standards assures highest safety standards. (hotkilns.com/met)

Optional Kiln Furniture, Rolling Stands, & Quad & APM Element Options

CONE 11 FURNITURE KITS

Shelves are high alumina cone 11 shelves. Each post kit includes six each 1/2", 1", 2", 4", 6" and 8" high 1.5" square cordierite posts. All furniture kits include one pair heat-resistant gloves.

(hotkilns.com/kiln-furniture)

QUAD ELEMENT DESIGN

The combination of 1/2" diameter element coils, the doubled surface area of the Quad element design, and superior heat transfer of L&L's patented ceramic element holders, make this the best element system in the world today. (hotkilns.com/quad-option)

APM ELEMENTS

Special sintered alloy provides the ultimate in element life. The special sintered alloy inhibits grain growth and resistance change in the elements. (hotkilns.com/apm)

ROLLING STAND WITH LOCKING CASTERS

Allows kiln to be moved out of the way while not firing. L&L's rolling kiln stand features heavy gauge (14 ga) galvanized steel construction with multiple bends for extra strength, steel swivel locking casters, integrated vent collection box support, and guide rails for the kiln. (hotkilns.com/rolling-stands)

SEISMIC BRACE

This special stand is designed to prevent a top-loading sectional kiln from falling over during an earthquake. (hotkilns.com/seismic-brace)

Ventilation Options & Accessories

DOWNDRAFT VENT SYSTEM

Vent-Sure downdraft vent vents fumes from kiln out of room and away from kiln. (hotkilns.com/vent)

VENT-SURE FEATURES

- Downdraft venting pulls air down to bottom of kiln
- Improves temperature uniformity inside the kiln
- Powerful 130 CFM fan motor, typically mounted on wall, allows fumes to be under vacuum in your studio
- The strong fan motor helps overcome static pressure in long exhaust lines. The duct may be up to 60 feet in length, and include up to four 90° bends
- 120 volts with on/off switch on cord (240 volts available)
- 15 foot long flexible aluminum duct
- Bypass collection box mounted on kiln allows adjustment of venting.
- Fan motor, mounted away from the kiln, stays cool and no vibration is transmitted to the kiln
- The included Multi-Mounting Bracket allows you to mount the vent on the floor or, alternately, to mount the vent on a wall so that the output of the vent is pointing up.
- Three-year Limited Warranty
- c-MET-us Listed to UL499 standards for use on c-MET-us L&L Kilns

VENT CONTROL

Allows vent to be controlled with an event switch in the DynaTrol or Genesis. (For use with one kiln.) (hotkilns.com/vent-control)

VENT DOUBLER

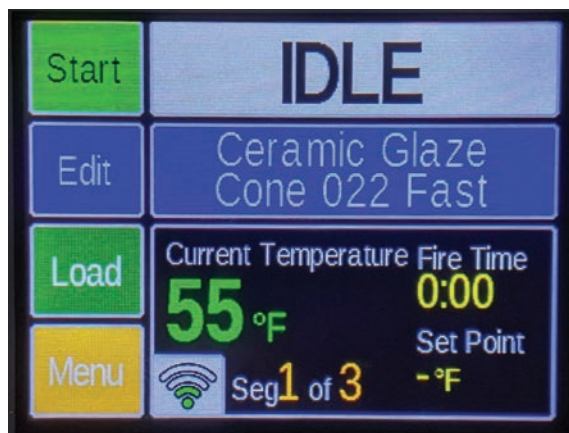

This accessory allows you to connect two kilns to a Vent-Sure vent system. It can be added to an existing vent system or can be ordered with a new vent. In some cases you may be able to fire two kilns at once. The Vent-Sure has enough force to vent at least 25 cubic feet of kiln. That means, for instance, that two e28T-3 kilns could be vented while firing at the same time. (hotkilns.com/doubler)

Genesis Touch Screen Control with App

GENESIS TOUCH SCREEN CONTROL

The Genesis control includes a touch screen interface and WIFI connectivity added to the proven software of the DynaTrol. More programming options and memory. Free App available to monitor kiln via WiFi. (hotkilns.com/genesis)

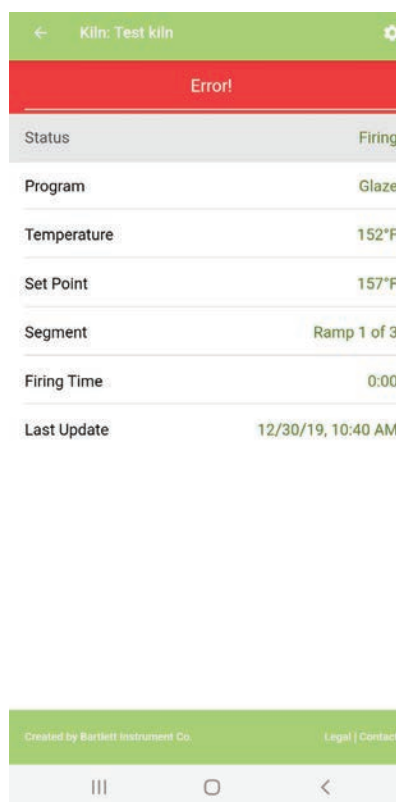

The Genesis control fits right into the control box to replace the DynaTrol. That means you can upgrade anytime!

See a graph of your firing before you fire, while you fire and after you fire.

GENESIS FEATURES

- Touch-screen intuitive technology for easy user interface.
- Easy-to-follow screen descriptions.
- Different user-interface levels, which can be set to match the user's firing knowledge.
- Graphical display of the firing process right at the controller. This means you can graph the firing in real time and compare the program with actual results.
- Glass programs included.
- Store up to 30 custom user programs.
- Up to 32 segments per program.
- Ability to make adjustments during a firing such as add segments, add temperature, and skip segments.
- Built in diagnostics testing
- Alarm
- Error Codes
- WiFi enabled for easy software updating.
- Included Phone App allows you to monitor kiln operation remotely (with no subscription fee).

This shows the view you get on your phone with the Kiln Aid Phone app. Simply download the Kiln Aid phone app from your Google Play Store or Apple App Store, add your kiln, and begin monitoring as your kiln progresses through a firing. See temperatures, where you are in a program cycle, what program you are firing and error notifications.

More Control & Power Options

TYPE S THERMOCOUPLES

The best thermocouple for constant high fire applications. No thermocouple drift. Priced per thermocouple. S and M models have two thermocouples. T models have three thermocouples. (hotkilns.com/type-s)

PYROCIL SHEATHED THERMOCOUPLES

For greater sensitivity to temperature change. Use below 2200°F for sensitivity (glass is a good example). Priced per thermocouple. These are useful for sensitive industrial applications. (hotkilns.com/pyrocil-tc)

OPTIONAL CORDS

Single Phase e18S and e18S-3 models can have a 12 foot 30 amp cord in various types. All other single phase models can get a 12 foot NEMA 6-50 cord. (hotkilns.com/cord-options)

120 VOLT POWER SUPPLY

If there are problems with short power outages, voltage spikes, voltage drops, or excessive environmental line noise, this can cause unpredictable behavior in the electronic control. With this option the control is powered by a separate 120 volt line (with a standard 6 foot long cord) and that voltage is filtered through an EMI (Electrical Magnetic Interference) noise filter. (hotkilns.com/noise)

e14S-3

Temperature Rating: Cone 10

Volume: 1.5 Cubic Feet

Brick Thickness: 3" Brick

Inside: 13.5" Diam x 18" High

Outside Dimensions: 23" W x 27" D x 51" H

Shipping Dim with Vent & Furn Kit: 36" W x 51" H x 36" D

Ship Weight (Kiln): 200 LBS

Ship Weight (Kiln, Vent & Furn Kit): 235 LBS

FURNITURE KIT FOR e14S-3

Part Number: H-E-K18S/00

Includes: Three 12" Full Round Shelves (1/2" thick), One small post kit with 4 each 1/2", 1", 2", 4", and 6" square posts, and one pair heat resistant gloves.

Electrical Specifications for e14S & e18 SERIES

MET UL499 Listing: All models are c-MET-us listed to UL499 standard.

Cone Rating: All e14S-3 and e18-3 models are rated to Cone 10.

Wiring Diagrams: See the **Electrical Tab** for each kiln model to get the wiring diagram for each voltage.

Power connection: A six foot cord with a 50 amp NEMA 6-50 for single phase units or a 15-50 plug for 3 phase units is included. (No neutral is necessary). World voltage kilns do not include a cord - they are direct wired. All kilns may be direct wired. Exception: The e14S-3 240 volt kiln has a 5-20 Cordset and the 208 volt version has a 14-30 Cordset.

Elements: All elements are of equal resistance value. S models have four elements. M models have five elements. T models have six elements. Quad elements are the same resistance but longer and thicker.

Other voltages for any country in the world are available. Examples are 200V/3 Phase Delta, 220V/3 Phase Delta, 415V/3 Phase Wye and 400V/3 Phase Wye. CE Listing available in some countries. See 380 Volt diagrams for electrical specifications for 400V/3 Phase Wye and 415V/3 Phase Wye.

Moving and installation: The kiln comes assembled but can be quickly disassembled and reassembled to move through any door or up stairs. It comes packed in a skidded carton with secure foam-in-place packaging.

Shipping Dimensions: See website for shipping dimensions with various combinations of options.

MET UL499 Listing: All models are c-MET-us listed to UL499 standard.

Cone Rating: All e23 models are rated to Cone 10.

Wiring Diagrams: See the **Electrical Tab** for each kiln model to get the wiring diagram for each voltage.

Power connection: A six foot cord with a 50 amp NEMA 6-50 for single phase units or a 15-50 plug for 3 phase units is included. (No neutral is necessary). World voltage kilns do not include a cord - they are direct wired. All kilns may be direct wired.

Elements: All elements are of equal resistance value. S models have four elements. M models have five elements. T models have six elements. Quad elements are the same resistance but longer and thicker.

Other voltages for any country in the world are available. Examples are 200V/3 Phase Delta, 220V/3 Phase Delta, 415V/3 Phase Wye and 400V/3 Phase Wye. CE Listing available in some countries. See 380 Volt diagrams for electrical specifications for 400V/3 Phase Wye and 415V/3 Phase Wye.

Moving and installation: The kiln comes assembled but can be quickly disassembled and reassembled to move through any door or up stairs. It comes packed in a skidded carton with secure foam-in-place packaging.

Shipping Dimensions: See website for shipping dimensions with various combinations of options.

e23S-3

Temperature Rating: Cone 10

Volume: 4.4 Cubic Feet

Brick Thickness: 3" Brick

Inside: 22.3" Diam x 18" High

Outside Dimensions: 30" W x 59" H x 40" D

Shipping Dim with Vent & Furn Kit: 48" W x 52" H x 40" D

Ship Weight (Kiln): 320 LBS

Ship Weight (Kiln, Vent & Furn Kit): 395 LBS

FURNITURE KIT FOR e23S-3

Part Number: H-E-K23S/30

Includes: One 20" (50.8 cm) full shelf and four half shelves, One post kit with 6 each 1/2", 1", 2", 4", 6", and 8" square posts, and one pair heat resistant gloves.

e23M-3

Temperature Rating: Cone 10

Volume: 5.5 Cubic Feet

Brick Thickness: 3" Brick

Inside: 22.3" Diam x 22.5" High

Outside Dimensions: 30" W x 63" H x 40" D

Shipping Dim with Vent & Furn Kit: 48" W x 57" H x 40" D

Ship Weight (Kiln): 350 LBS

Ship Weight (Kiln, Vent & Furn Kit): 425 LBS

FURNITURE KIT FOR e23M-3

Part Number: H-E-K23S/30

Includes: One 20" (50.8 cm) full shelf and four half shelves, One post kit with 6 each 1/2", 1", 2", 4", 6", and 8" square posts, and one pair heat resistant gloves.

e23T-3

Temperature Rating: Cone 10

Volume: 6.7 Cubic Feet

Brick Thickness: 3" Brick

Inside: 22.3" Diam x 27" High

Outside Dimensions: 30" W x 68" H x 40" D

Shipping Dim with Vent & Furn Kit: 48" W x 61" H x 40" D

Ship Weight (Kiln): 380 LBS

Ship Weight (Kiln, Vent & Furn Kit): 470 LBS

FURNITURE KIT FOR e23T-3

Part Number: H-E-K23T/30

Includes: Two 20" (50.8 cm) full shelf and four half shelves, One post kit with 6 each 1/2", 1", 2", 4", 6", and 8" square posts, and one pair heat resistant gloves.

MET UL499 Listing: All models are c-MET-us listed to UL499 standard.

Note about high fire in a single phase e28T-3: If you plan to fire regularly to higher temperatures like cone 6 it is highly recommended to buy a Jupiter JD2927-3 or an eQ2827-3. Those models have higher watts and amperage in the single phase versions. The 3 phase e28T-3, on the other hand, has more than enough power to get to Cone 10 consistently.

Note about e28T-240-3P-40 & e28T-208-3P-40: These are made available for customers who need to make a one to one replacement for certain competitor kilns. Whenever possible we recommend the higher wattage versions of the kilns.

Power connection: A six foot cord with a 50 amp NEMA 6-50 for single phase units or a 15-50 plug for 3 phase units is included. (No neutral is necessary). World voltage kilns do not include a cord - they are direct wired. All kilns may be direct wired.

Wiring Diagrams: See the **Electrical Tab** for each kiln model to get the wiring diagram for each voltage.

Elements: All elements are of equal resistance value. S models have four elements. M models have five elements. T models have six elements. Quad elements are the same resistance but longer and thicker.

Other voltages for any country in the world are available. Examples are 200V/3 Phase Delta, 220V/3 Phase Delta, 415V/3 Phase Wye and 400V/3 Phase Wye. CE Listing available in some countries. See 380 Volt diagrams for electrical specifications for 400V/3 Phase Wye and 415V/3 Phase Wye.

e28S-3

Temperature Rating: Cone 10

Volume: 6.8 Cubic Feet

Brick Thickness: 3" Brick

Inside: 28" Diam x 18" High

Outside Dimensions: 35" W x 65" H x 46" D

Shipping Dim with Vent & Furn Kit: 48" W x 52" H x 40" D

Ship Weight (Kiln): 410 LBS

Ship Weight (Kiln, Vent & Furn Kit): 520 LBS

FURNITURE KIT FOR e28S-3

Part Number: H-E-K28S/00

Includes: Six 25.5" (64.8 cm) half shelves, One post kit with 6 each 1/2", 1", 2", 4", 6", and 8" square posts, and one pair heat resistant gloves.

e28M-3

Temperature Rating: Cone 10 (Cone 8 on 208V/1Ph)

Volume: 8.5 Cubic Feet

Brick Thickness: 3" Brick

Inside: 28" Diam x 22.5" High

Outside Dimensions: 35" W x 69" H x 46" D

Shipping Dim with Vent & Furn Kit: 48" W x 57" H x 40" D

Ship Weight (Kiln): 445 LBS

Ship Weight (Kiln, Vent & Furn Kit): 555 LBS

FURNITURE KIT FOR e28S

Part Number: H-E-K28S/00

Includes: Six 25.5" (64.8 cm) half shelves, One post kit with 6 each 1/2", 1", 2", 4", 6", and 8" square posts, and one pair heat resistant gloves.

e28T-3

Temperature Rating: Cone 10 on 3 phase modes, Cone 8 for 240V/1Ph, Cone 5 for 208V/1Ph)

Volume: 10.2 Cubic Feet

Brick Thickness: 3" Brick

Inside: 28" Diam x 27" High

Outside Dimensions: 35" W x 74" H x 46" D

Shipping Dim with Vent & Furn Kit: 48" W x 61" H x 40" D

Ship Weight (Kiln): 475 LBS

Ship Weight (Kiln, Vent & Furn Kit): 610 LBS

FURNITURE KIT FOR e28T

Part Number: H-E-K28T/00

Includes: Eight 25.5" (64.8 cm) half shelves, One post kit with 6 each 1/2", 1", 2", 4", 6", and 8" square posts, and one pair heat resistant gloves.

Note about high fire in a single phase e28T-3: If you plan to fire regularly to higher temperatures like cone 6 it is highly recommended to buy a Jupiter JD2927-3 or an eQ2827-3. Those models have higher watts and amperage in the single phase versions. The 3 phase e28T-3, on the other hand, has more than enough power to get to Cone 10 consistently.
