KILN CAUTIONS

SURFACE IS HOT AND CAN CAUSE BURNS

DO NOT UNLOAD KILN WHILE HOT

You may burn yourself or you may harm your work.

VIEWING INTO KILN

Use dark glasses (shade number 1.7 to 3.0) to view inside the kiln through the peepholes when firing.

ATTEND THE FIRING

We recommend attending the kiln while firing. Be especially careful about attending the kiln when it is scheduled to shut off.

KEEP LID CLOSED WHEN KILN IS NOT USED

Keep lid closed when not operating the kiln. Keeping the lid closed will keep out dust and extend the longevity of your kiln.

TURN OFF POWER WHILE LOADING

Turn off power to the kiln when loading or servicing.

ELECTRICAL SAFETY

Lock out all electrical power before repairing kiln. Have electrical installation performed by a licensed electrician.

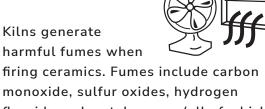

SPRINKLER CAUTIONS

If you have a sprinkler system be careful to check the temperature rating and location of the heads so that you do not inadvertently cause them to activate under normal firing conditions.

VENTILATION IS ESSENTIAL

Kilns generate harmful fumes when monoxide, sulfur oxides, hydrogen fluoride and metal vapors (all of which

FIRE EXTINGUISHER

Keep an adequate fire extinguisher near the kiln and check it on a regular basis.

AVOID LOOSE/ **FLAMMABLE CLOTHING**

When working around a hot kiln be careful of the kinds of clothes you are wearing. Some clothes could potentially catch on fire if they touch the hot surface of a kiln.

can be very toxic).

Do not put sealed containers or combustible materials such as solvents, paper, rags, in or near kiln. An explosion or fire could result.

DO NOT OPEN DOOR ABOVE 250°F

Do not open the kiln door until the kiln has cooled down to 250°F (120°C).

KEEP KILN DRY

Kiln must be kept dry and protected from moisture. It is best to keep kiln in an enclosed room away from inclement weather and dew formation.

CHILDREN & PETS

Protect any children, animals, and unqualified adults (anyone who is not able to understand these cautions) that may be near the kiln.

DO NOT FIRE TOXIC, FLAMMABLE, OR **UNKNOWN MATERIALS**

Flammable or unknown materials can decompose under heat causing the release of highly toxic fumes or rapid uncontrollable combustion.

Do not use the lid as a storage shelf. The lid could crack.

NO EXTENSION CORDS

Locate the outlet close enough to the kiln to plug directly into it with the kiln's supplied power cord.
